

The Complete Solution for **Composite Doors**

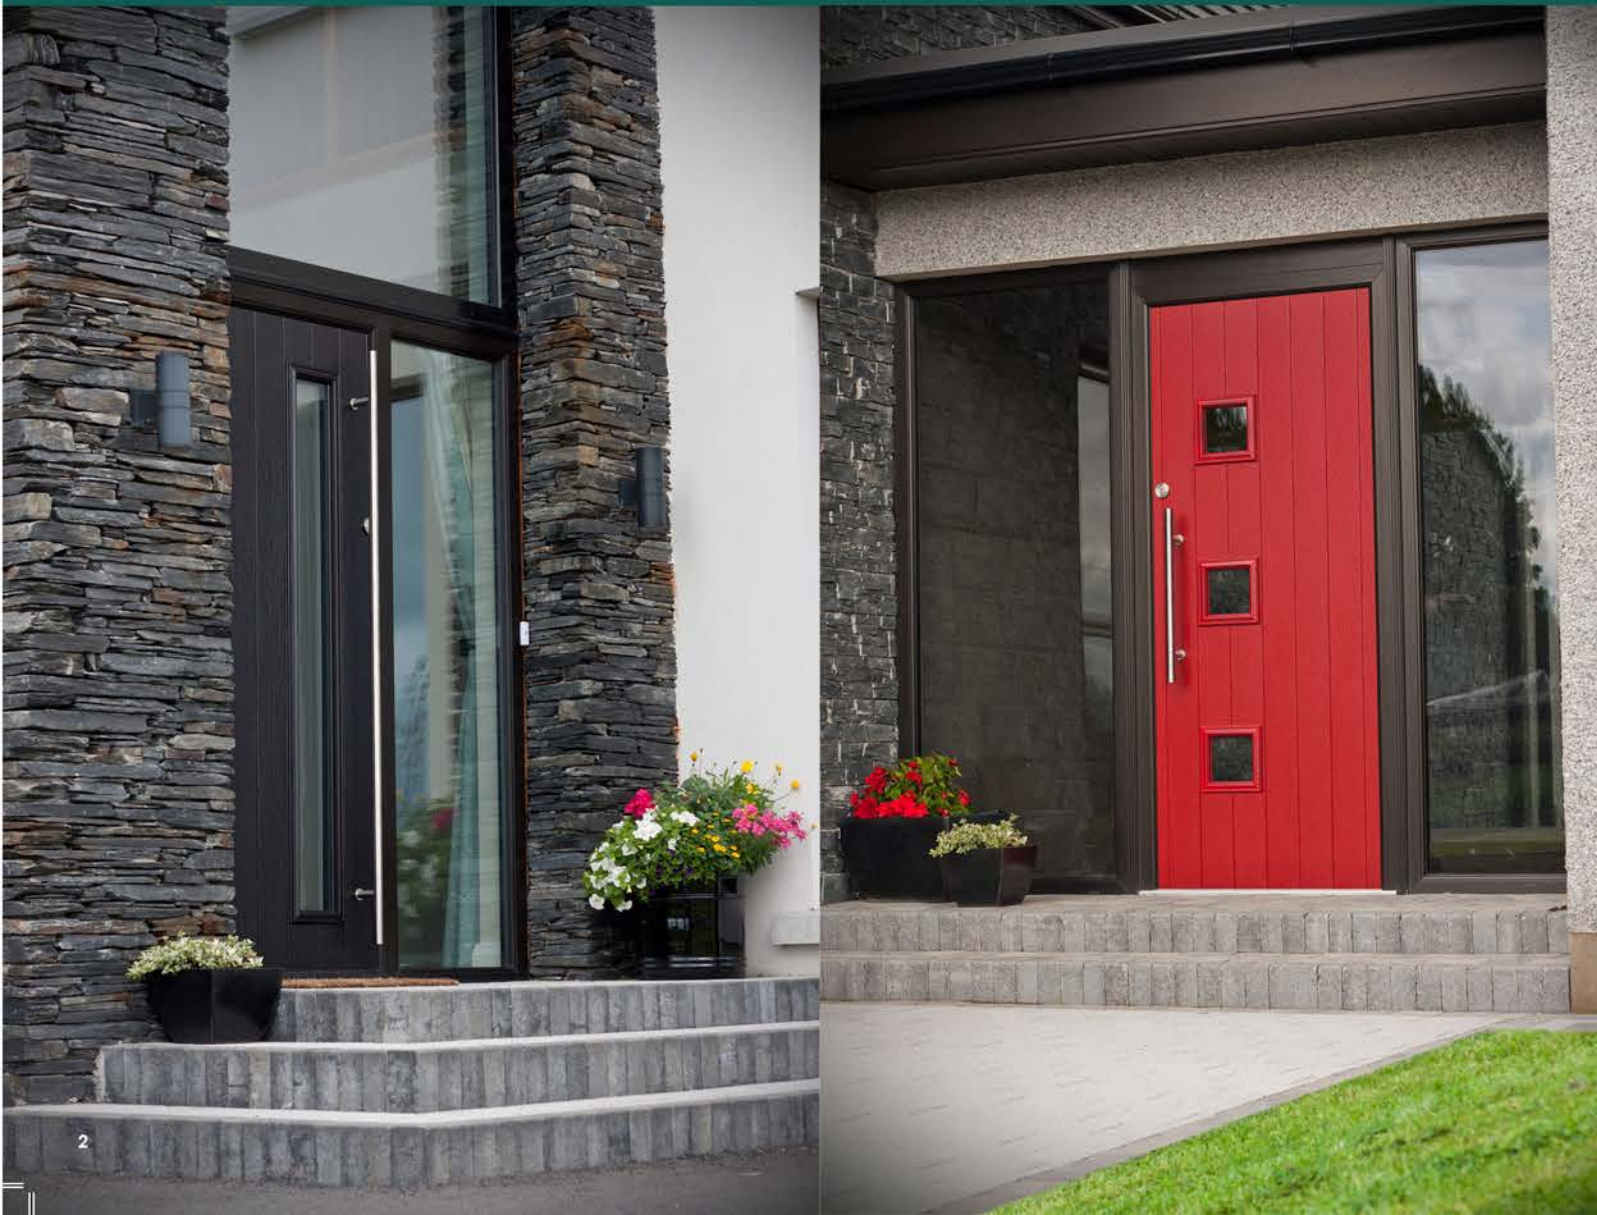

Ecodoor™

Ecodoor specialise in the supply of high quality, industry leading GRP insulated doors. These are custom fabricated into a full door-set at our specialist, Ireland based, manufacturing facility.

Not only will your door look fantastic but combined with the latest high security locks your house will be the safest it's ever been. Ecodoor's composite technology is extremely energy efficient; with u-values as low as 0.8W/m²K helping keep energy costs down, minimising your carbon footprint. Our doors are PAS24 & U-value certified.

Based in Moira, Northern Ireland, we specialise in the supply & manufacture of windows & composite doors. Our roots stretch back over 45 years along with our commitment to product & service excellence.

A Proven Pedigree

We build the best and most environmentally friendly doors on the market. Helping to lower your CO2 footprint.

Wide Selection of Door Styles

We have developed a range of traditional and contemporary door styles that will suit all tastes, house styles and budgets.

2 Finishes

Available in either a woodgrain or smooth finish, the 2mm thick GRP door skin is maintenance free and hard wearing. GRP is resistant to knocks and dents and looks like real wood.

Choice of Colours

Coated using a hard-wearing Polyurethane paint system similar to that used in the yacht industry, our doors are all available in a wide range of pre-finished colour options as well as our TrueGrain wood effect. All doors finished using our proprietary paint system come with a 10 year warranty against fade, loss of gloss and adhesion.

4 Glazing Frames

All glazed options are fitted using industry leading PAS 24 Compliant glazing cassettes. Many of our doors now come as standard with our new, contemporary, low profile Spotlights or ZEEL options. For our more traditional door styles, we use the industry leading sculptured TrSYS system.

Secure by Design

Featuring our patented high strength core and LVL timber reinforcements our doors are secure by design and comply to PAS 24 standards for advanced security. Coupled with our SBD high security cylinders and escutcheons, will provide assurance that your home is safe in your absence.

Decorative Glass

Our doors come with a wide variety of unique decorative glass options that have been carefully designed to work with the various door styles. Whether traditional, contemporary or minimalist, we have options to cover all tastes.

Technical Specifications

The Ecodoor Slab

Manufactured using grained and smooth 2mm thick impact resistant GRP SMC skins and are available in a wide variety of styles and colours including wood stains. Stiles and Rails are manufactured from a water-resistant pure PVC polymer and reinforced using LVL (Laminated Veneered Lumber) timbers with a minimum density of 570 kg/m³.

The SMC skins and sub frame door assembly are fully bonded using a Urethane Adhesive Resin. The door is filled with CFC-Free Polyurethane foam, a superb insulation material which vastly reduces the transfer of heat through the door. With a density 44.5 - 45.5 kg/m³ this provides insulation that as part of a doorset assembly achieve a U value as low as 0.8W/m²k

Security

The door slab along with the glazing system are major components of any doorset. The Ecodoor door slab using internal reinforcing and coupled with our stylish glazing cassette systems is a proven combination for achieving a security level to PAS24:2016 the industries enhanced security standard which is a requirement to achieve certification for Secured by Design; the police initiative to protect against unlawful entry to a property and Document Q of the Building Regulations.

Glazing Cassettes

Glazing cassettes used to frame our glass are available in three options (door design dependent) and are fully de-glazeable should there be need to change the glass design.

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with recognised accreditations for performance, strength and thermal efficiency.

All units are made with toughened glass which is up to 5 times stronger than ordinary annealed glass and complies with EN12150, the International standard for safety glass.

All sealed units are manufactured to the BS EN1279, a standard which guarantees the quality of components and most importantly the seal, which comes with a manufacturer's 10-year warranty.

Certification.

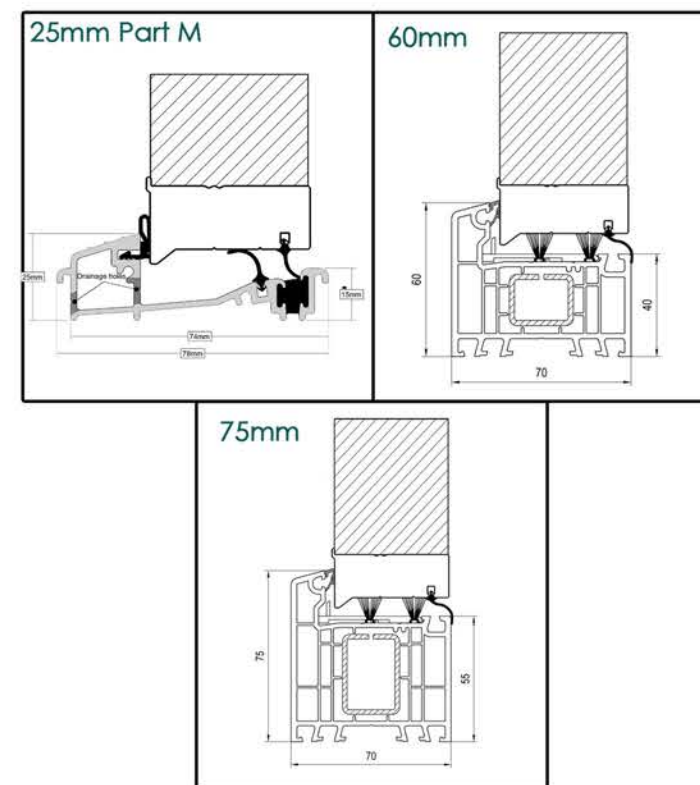

The Ecodoor slab is manufactured as part of the BM Trada Q-Mark scheme with full manufacturing traceability.

Our suppliers operate certified management systems to ISO 9001 and ISO 14001 and are members of the ACDM (Association of Composite Door Manufacturers). All timbers used in the manufacturing of the Ecodoor door slab are subject to FSC chain of custody ensuring they are from sustainable sources.

Thresholds.

Ecodoor offer 3 threshold profile options to suit your requirements; 25mm Part M, 60mm & 75mm (see below)

Care and Maintenance

To keep your door in great condition, there is minimal requirement for maintenance. Frequency may depend on surrounding conditions such as a coastal locations or nearby industrial activities.

The following steps should be used as guide:

- Door frames should be washed with warm soapy water, stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based or abrasive products should be used at any time.
- Glass surfaces should be cleaned with warm soapy water and or a proprietary glass cleaner.
- Hardware can be wiped clean. No harsh chemicals or abrasives should be used as this will damage any protective coating.
- Moving parts should be lubricated with a light engineering oil.
- Maintenance of the door may be required to maintain any guarantees from the installer.
